

9 December 1952

COUNTRY: Brazil

SUBJECT: Reported Existence During World War II of German Long-Range Rocket Missile

PLACE ACQUIRED: - - - 25X1X6

DATE ACQUIRED: Jan 52

DATE OF INFO: 1945

SOURCE:
25X1X6

1. While I was in the town of Goiania, in the state of Goias in Brazil (January 1952), I became acquainted with [REDACTED] a German formerly a Lieutenant Colonel in the Luftwaffe. [REDACTED] is now working as a surveyor in laying out streets and roads in and about Goiania, as an employee of the State and also possibly the City government. He is 38 years old [as of January 1952].

2. [REDACTED] told me he was assigned to and active on the Russian front during World War II, and in his work had access to classified information. He said Hitler spent a day or so at one of the locations at which he was stationed. [REDACTED] told me he learned at this time that the Germans reportedly had developed a V-type rocket missile with a three thousand mile range, and 50 meter target accuracy. Further, [REDACTED] claims that Hitler gave an order a day or two before his death that 10 of these missiles be allowed to fall into the hands of the Soviets, and 10 into the hands of the US troops.

[Collector's Note: Source reports that this information has been made available to the US Air Force and the US Navy.]
